GOVERNMENT OF THE HOSPITAL.

A BOARD of Management, styled the Weekly Board, meets in the Board Room of the Hospital every Wednesday, at 11 a.m., for the transaction of the ordinary business.

A Court of Governors is held on the last Thursday in the months of February, May, and November for the confirmation of such acts of the Weekly Board as require the sanction of a Court, and the transaction of special business. A Special Meeting of this Court may be called at any time, either by order of the Court or of the Weekly Board, or upon the requisition of the Treasurers or of any five Governors.

The Patrons, President, and Vice-Presidents are *ex-officio* Members of the Court, of the Board, and of Committees of a Court or Board.

THE MIDDLESEX HOSPITAL.

REPORT FOR 1918.

To the Court of Governors.

MY LORDS, LADIES AND GENTLEMEN,

During the past year 4,720 patients were treated in the Hospital, as compared with 5,087 in 1917.

The average number of beds occupied daily was 291.09, compared with 311.72 in 1917, and the average length of stay was 22.51 days.

In the Out-Patient Department 51,366 new patients were treated, an increase of 2,810 over the figures for 1917.

The number of attendances also rose to 166,278, an increase of 1,419; while the average attendances per patient dropped from 3.39 in 1917 to 3.24 this year.

The number of wounded soldiers admitted to the Hospital in 1918 was 254, making the total number of admissions from August, 1914, to December 31st, 1918, 1,585.

In the Electrical Department 4,511 new patients were treated. The total number of attendances was 37,105, an increase of 10,636 over those of 1917.

It will be seen from the Income and Expenditure Account that the annual subscriptions amounted to £6,487 6s. 5d., an increase of £448 6s. 0d. The receipts from donations showed a bare increase of £74 11s. 0d. from £4,260 18s. 7d. to £4,335 9s. 7d. In addition there is to be taken into account the new source of income (referred to elsewhere in the Report) from the "All Help" League, of £1,631 10s. 1d.

The following contributions, by reason of their liberal character, are worthy of mention:—

	£	s.	d.

The Lord Howard de Walden	300	0	0

A grant of £7,500 was received for the Hospital from King Edward's Hospital Fund for London, apportioned as follows:—£5,500 General Fund, £1,000 for recent improvements, £1,000 towards reduction of debt. The grant in 1917 was £6,000 in all.

The award from the Hospital Sunday Fund was £3,715 3s. to the General Fund, as compared with £3,210 13s. 9d. in 1917.

The award from the Hospital Saturday Fund was £968, as compared with £929 in 1917.

The following Donations and Legacies have been received and invested on behalf of the Permanent Endowment Fund:—£3,000 under the will of the late Mrs. A. G. Paddock for the endowment of two beds in the General Wards; Securities valued at £3,458 2s. 5d. under the will of the late Mrs. Catherine Nash for the foundation and maintenance (part) of the Robert George Nash Wards; £1,050 to endow a bed in memory of the late Charles Davis, Esq., a former Member of the Weekly Board, contributed in equal sums of £175 each by Mrs. Charles Davis, Mrs. Leopold Sutro, Mrs. Bernard Strauss, E. C. Davis, Esq., L. C. Davis, Esq., and Richard C. Davis, Esq.; £1,050 from Sir Edward Penton, K.B.E., for the endowment of the "Caroline Penton" bed; £1,000 under the will of the late Mr. H. F. Bailey for the endowment of a bed in the General Wards, to be named the

"Henry F. Bailey" bed; £200 from Mrs. Douglas Cow, further payment towards the endowment of the "Marion Roalfe Cox" bed in "Helena" Ward.

A movement originated by "Fall-in," the journal of the Middlesex Regiment, and continued by Captain G. F. Sexton, to endow a "Die Hards" bed in memory of the honoured dead of the Regiment, has met with gratifying success, and the first instalment of £525 has been received with gratitude. We trust that this most appropriate form of memorial will shortly be completed, and even followed by similar endowments.

The yield from Invested Property was £5,900 4s. 5d., higher than that of 1917 by £218 14s. 0d.

The Trustees of the "Annie Zunz" bequest have again shown their sympathy with the work of the Maternity Department by making a grant of £750 towards the cost of the maintenance of the Annie Zunz Wards during the year 1917.

The year's dividend from the "David Hughes" Hospital Trust Fund amounted to £1,880 7s. 10d.

Legacies available for maintenance, always a variable source of income, yielded the sum of £10,174 11s. 11d., a gratifying increase over last year, but still below the average of the preceding 10 years.

Among the Legacies received were the following sums:—

£3,969 9s. 0d. from the residuary estate of the late Mrs. Amelia Green.

£2,700 from the executors of the late Mrs. Elizabeth Tupper.

£1,000 from the executors of the late Mr. Thomas Munday.

£762 15s. 1d. from the executors of the late Mr. Louis Loeske.

£500 from the executors of the late Lieut. A. P. Wernher.

£300 from the executors of the late Lt.-Col. T. Lambert Mears, M.A., LL.D.

£250 from the executors of the late Mr. Simeon Louis Lazarus

£200 from the executors of the late Miss Sarah Amelia Ward.

A new source of income has been organised by the founding of the "All Help" League, which enlists the support of ex-patients for the work of the Hospital, not only by their own contributions, but by extending the knowledge of the needs and benefits of the Hospital among their friends. The success of this scheme is largely due to the voluntary work of Mrs. Richard Davis, and has resulted in the gratifying addition of £1,631 10s. 1d., contributed in small amounts, to the fund.

The total Income from all sources was £50,180 10s. 11d., as compared with £38,148 19s. 1d. in 1917. This gratifying increase is, to a large extent, due to the improvement in the receipts from legacies; while it is also a source of congratulation that the other forms of support have been more than maintained.

The cost of Management represents 3.13 per cent. of the total cost of Maintenance and Administration.

The average total cost of each In-Patient per week was £2 16s. 7½d., an increase of 7s. 4½d. over the corresponding cost in 1917. This is hardly to be wondered at when it is realised that the price of eggs rose 55 per cent., meat nearly 50 per cent., and milk 33 per cent., not to mention a considerable rise in steam and house coal. One item of expenditure shows rather a fictitious increase. The opportunity occurred of securing a very favourable contract for dressings and bandages for immediate delivery. Consequently a larger quantity had to be paid for during the current year than is usually the case; but the Hospital will reap full benefit for this far-sighted policy.

The total Expenditure was £54,502 9s. 0d., being £4,321 8s. 1d. in excess of the total income; and £2,028 4s. 11d. more than in 1917.

It is with profound regret that we record the death of His Grace the 7th Duke of Northumberland, President of the Hospital for nearly twenty years.

We have pleasure in announcing that his successor in the title has accepted the post of President of the Hospital. It is worthy of note that the Head of the House of Percy has filled this post since the foundation year 1745.

It is with profound regret that we record the death of Col. The Hon. C. G. Gathorne Hardy, Vice-President, and Acting Chairman of the Weekly Board. He fulfilled his duties throughout an exceptionally trying and critical period with conspicuous zeal and success, and his unremitting services in the interests of the Hospital will be sorely missed. A memorial service was held in the Hospital Chapel, which was largely attended by representatives of all branches of the Staff.

We have to record, with deep regret, the death of Mr. C. H. Berners, Vice-President, a true and generous friend of the Hospital.

We have pleasure in announcing that the Chairman, Brigadier-General The Earl of Athlone, G.C.B., G.C.V.O., D.S.O., has appointed Mr. F. Cavendish Bentinck Deputy Chairman of the Weekly Board.

We look forward with pleasurable anticipation to the time, which we trust will soon arrive, when the military duties of our Chairman will once more permit him to resume his active participation in the work of the Hospital.

We welcome with pleasure the election to membership of the Weekly Board of two ladies, The Dowager Countess Brassey and Lady Agnes Peel, a new departure entirely justified by its satisfactory results.

Dr. Robert Arthur Young has been elected a Physician to the Hospital in succession to Dr. F. J. Wethered, and Dr. G. E. S. Ward has been elected an Assistant Physician in his place.

We have to record, with much regret, the death of the Rev. Herbert E. Gunson, late Chaplain to the Hospital, to whose memory a suitable tablet will be placed in the Chapel.

Dr. M. E. Robinson has resigned the office of Resident Medical Officer, and Mr. A. de Winter Baker has been appointed temporarily to succeed him.

We take this opportunity of welcoming back to the Hospital those members of the Staff who answered their country's call, and have been doing yeoman service on its behalf in many places.

We have once more to express our gratitude to Messrs. Schweppe & Co., Ltd., for the free supply of ærated water syphons for the benefit of patients; to Messrs. W. E. & F. Faulkner for a regular supply of tobacco and cigarettes for the wounded soldiers, and to many other friends of the Hospital who have, from time to time, sent various gifts in kind.

Our sincere thanks are due to the British Red Cross Society, the American Red Cross, The St. Marylebone War Hospitals Supply Depot, and Queen Mary's Needlework Guild for valuable and useful stores and articles provided for patients.

The Ladies' Work Society, under the Presidency of The Dowager Countess of Derby, has yet again earned our deep gratitude for most valuable help. Its members have had unusual calls upon their time, yet their services are still unstintingly given to our Hospital needs, and the normal number of garments for patients' use has been thankfully received.

The Dowager Countess of Derby has also shown, in other ways, that she has the interests of the Hospital at heart, by her thoughtful kindness in obtaining and making most acceptable contributions, especially the sum of £33 11s. 9d. towards the upkeep of the Bird Ward.

We highly appreciate the invaluable help we have received from many voluntary helpers in our time of need, whether in the Hospital or in the vegetable field, and a special meed of praise is due to those ladies who have attended so regularly day by day to convey patients to and fro between the wards and Operating Theatres; to all we tender our heartfelt thanks; the consciousness of good work well done must be their reward.

The beneficent scheme for combating the insidious ravages of venereal diseases, which is being carried on in conjunction with the Local Government Board and neighbouring County and Borough Councils, has been energetically administered, and continues to meet with most gratifying success.

The total number of attendances was 6,722, compared with 5,527 in 1917, and in addition 531 in-patient days of treatment were given to sufferers.

The temporary working arrangements with the Ministry of Pensions for free treatment of discharged disabled soldiers and sailors has been efficiently carried on during the stipulated period

of 12 months. A large number of these men, to whom are due every care and consideration, have been successfully treated, both as Out-Patients and In-Patients. Pending the settlement of the most intricate question of the best method to adopt for the permanent treatment of this class of men, we are continuing to provide for all cases that offer themselves.

The occupation of two large and two smaller Wards in the Hospital and of the whole of the Convalescent Home by wounded soldiers has at length come to an end. For four and a half years the energies of the necessary portion of the Staff, depleted by war work in other spheres, have been devoted to this most important work, and the results have been eminently satisfactory. While we have been very ready to contribute our utmost to this national necessity, at the same time it is most gratifying to all concerned that their efforts have received the grateful recognition and cordial thanks of the War Office. The total number of wounded admitted to both Hospitals, so far, has been 10,712.

Lady Brassey has initiated, and with the help of Lady Rew, as Honorary Secretary, has successfully organised and kept in going order a useful body of voluntary women-workers. The object of this scheme is to relieve the Nursing Staff of merely routine ward-work, and so allow them more time to devote to the care of their patients.

We wish to record our thanks to these two ladies for this very helpful addition to our working staff.

In co-operation with the Health Society of the Borough of St. Marylebone, an Infant Welfare Centre has been established to provide for all needful help in subsequently maintaining the health of babies born in the Hospital, and in affording useful instruction and assistance, where needed, to their mothers.

The work will be carried out under the direction of Dr. E. A. Cockayne, and we have every reason to believe that it will be largely instrumental in diminishing infant mortality, and in raising the standard of physical fitness in the rising generation, much desired objects of especial importance in present circumstances.

The absolute necessity of improvements in the accommodation provided for the Nursing Staff has become a matter of urgency. Alterations in the existing Homes, and a considerable addition of premises elsewhere are essential for ensuring a separate bedroom for each nurse and adequate rest and recreation rooms, where the Nurses can obtain a complete change of atmosphere, and relief from the depressing monotony of their working surroundings. Not only will this project add to the attractions of the calling, but bodily health and mental freshness will undoubtedly result from it. To obtain these desirable ends will cost a very considerable sum of money. The Hospital cannot meet this extraordinary expenditure from its normal resources. A special fund is, therefore, being raised by H.R.H. Princess

Alice, Countess of Athlone, and her appeal should surely meet with a ready and liberal response from all those who have at heart the interests of Hospital work for the poor and needy.

Time presses, so we would plead for prompt support.

The following generous contributions to this Fund have already been received :—

We regret that we have to report the absolute necessity of closing the Hospital for three months, from July 1st, and it needs no assurance from us that this step has been taken with the utmost reluctance. A period of 14 years has elapsed since a similar closing took place. During the past four years, owing to lack of labour and the impossibility of obtaining the necessary material, the whole of the engineering, heating and lighting plants could only be kept going with the barest patchwork, with the result that they now need complete dismantling, overhauling and repairing; they would not have lasted through another winter. With such extensive work on hand partial closing is out of the question. Repairs and redecoration will also be carried out during this period. The expenditure on these essential works is estimated at £15,000. This is a very heavy extra drain upon our resources, and we would therefore urgently appeal for special contributions to meet this extraordinary expenditure.

The Branch Hospital at Clacton-on-Sea was again entirely devoted to the treatment of wounded soldiers, with eminently satisfactory results.

The number treated in 1918 was 2,272, a decrease of 119 as compared with 1917; and the average number of beds occupied daily was 49·78, with an average length of stay of 8·00 days.

The cost of maintenance and administration was £6,883 3s. 1d., as against £6,957 18s. 6d. The number of patients

treated was 2,272, compared with 2,391, and the average total cost of each per week was £2 13s. 0·38d., a decrease of 1s. 4·18d.

The total number of men treated up to December, 1918, has been 9,117.

The strain on the Staff has therefore been continuous, and would have proved excessive, had it not been that many voluntary helpers gave their time and services in various spheres with whole-hearted self-sacrifice, for which we tender our best thanks.

Mr. Comyns Berkeley and Mr. Victor Bonney remained in charge of the patients, though their unremitting services here entailed much interference with their regular professional duties elsewhere. The Matron, Miss Morgan, was untiring in her work of maintaining the efficiency of the whole establishment.

During the period of three months from 1st July, when the Hospital will be closed, the Branch Hospital will be used for the care of cancer patients, whose treatment will thus continue on the same basis as in the Cancer Wing.

The work of the Bland-Sutton Institute concerned with the examination of material from patients has again undergone a marked increase during the past year. Research work has also been pursued as energetically as the depleted state of the Staff permitted. In this connection war problems necessarily absorbed the greater part of the activities of the Department. Investigations on the Flavine bodies have been continued, and a new derivative, Proflavine Oleate, has been prepared in the Institute.

In the course of the year Flavine has proved itself of value in a new field, viz., the treatment of gonorrhœa; and work by several independent observers has been published which indicates that the use of the Flavine compound marks a distinct advance in the treatment of this disease. The investigations on therapeutic antiseptics are still proceeding, since the needs for further advance in the treatment of sepsis have not merely not come to an end with the cessation of hostilities, but are as urgent as ever.

The services of the Institute and its Staff have also been sought in other matters relating to the National health. Thus, the War Office Trench Fever Investigation Committee, during the course of the year, decided to form a Sub-Committee on Treatment, and the Director of the Institute was invited to become a member, and has given his services in furthering this work. Biochemical researches on certain phases of the disease have also been carried out by Dr. Kennaway at the Institute. In this way the Hospital has been able to lend assistance toward the investigation of a problem which very seriously affects the health of the general community.

Dr. Browning was also co-opted as a member of the National Medical Research Committee's Special Committee on Pathological Methods to take part in its work on diagnosis in enteric fever and

other intestinal infections. In this connection it will be remembered that a bacteriological method of diagnosing enteric infections by isolating the causal organism through the agency of brilliant green was elaborated in the Institute. The success which has attended this method under the trying conditions of active service has already been recorded; but a further report testifying to its great value in an epidemic of different type, due to food-poisoning bacilli, has recently been published.

Research on the syphilitic blood reaction, carried out in association with the Medical Research Committee, has been continued throughout the year. At the Committee's request an investigation on the reliability of this test was undertaken by the Institute along with two other Hospitals. The results, which have been embodied in a Special Report of the Medical Research Committee, were in a very high degree favourable to the value of this reaction as a reliable indication of syphilis. The utility of laboratory methods as an aid in the diagnosis and the control of treatment of venereal diseases is meeting with ever widening recognition. It is a tribute to the growing confidence with which medical men regard these tests that the work done here for outside practitioners under the London County Council's scheme, during this second year of its operations, shows more than a threefold increase as compared with 1917.

Early in the year a volume of studies bearing especially on bacteriological war problems, and embodying research work carried out by members of the Staff of the Institute, to which the Physicist of the Hospital also contributed, has been published under the editorship of the Director, with the title of "Applied Bacteriology." This volume marks the first fruits of original work carried out in the Bland-Sutton Institute during the trying period of three years from its opening in 1915.

Now, as in the past, Medical Men have exhibited the highest courage and self-sacrifice in their efforts to maintain the health of our Armies, but hitherto they have been cramped and hampered in their activities by lack of knowledge. During this great war, however, they have been equipped with weapons forged in the laboratories; with these they have exterminated many epidemic diseases which would with certainty have exacted a heavier toll on our soldiers than did the arms of the enemy. The devastation due to war has ceased, but very many of the ravages which disease creates in times of deepest peace still proceed unchecked. Epidemic diseases, like influenza and the pneumonia which follows in its wake, are immeasurably more destructive to life and health than the most savage efforts of a human enemy. It is by research alone that we can hope to solve these problems of disease. The Bland-Sutton Institute affords to the Hospital the nucleus round which the laboratory aspects of such research can crystallise, but this valuable Department is still hampered by incompleteness in several important respects. Thus Laboratories for Pharmacology and Synthetic Chemistry are still wanting. It is hoped that these, along with the necessary staff, may be installed before long, so that the Institute may be able

to afford to the Hospital's patients and to medical practitioners the utmost advantages which accrue from scientific progress. Our ambitions in this direction are only limited by lack of funds, and we earnestly appeal to those who have the means to help us to contribute to the Special Research Fund which has been formed for this purpose.

ALMONER'S REPORT FOR 1918.

During the past year the work in the Almoner's Department has continued, and the numbers dealt with have been on the increase. The sphere of the work has widened and the need has been felt of opening up new branches, and amongst other schemes we are hoping to start the Infant Welfare Centre within a few days.

About 1,685 new patients have been referred to the Department for help in various ways.

Instruments.

240 Surgical, Dental and Optical Appliances have been supplied to In-patients at a cost of £257 10s. 9d.

263 Surgical, Dental and Optical Appliances have been supplied to Out-patients at a cost of £212 19s. 4d.

These have been paid for in the following manner :—

	<i>In-patients.</i>			<i>Out-patients.</i>

A few patients have made their own arrangements with the Instrument maker.

Convalescent and Sanatorium Treatment.

(i) *In-patients.*—296 adult patients have been sent to Convalescent Homes, of whom 200 have gone to the Metropolitan Convalescent Institution, Bexhill, 63 to Walton-on-Thames, the remainder to other Homes such as St. Andrew's, Clewer, St. Andrew's, Folkestone, to the Royal Sea Bathing Hospital, Margate; 4 have gone to St. John's Brine Bath Hospital, Droitwich, several have been admitted to Nursing Homes or Homes for Incurables, and 30 patients have been sent to the Schiff Home of Recovery, Cobham, Surrey.

The majority of patients have a period of three weeks convalescence but the time has been extended to six, nine, and in some cases to twelve weeks when necessary.

71 children have been sent to various Convalescent Homes and in some cases they have remained away for several months.

18 adult patients have been recommended sanatorium treatment and have been dealt with by the London Insurance Committee or the London County Council, 4 have gone to Benenden, 3 to Kelling and 1 to Creton, beds given us by King Edward's Fund.

12 children have been referred to the London County Council for sanatorium treatment.

The amount spent upon convalescent treatment from the Dresden Assistance Fund is £894 12s. 9d. Patients have been assisted with railway and cab fares to Convalescent Homes or to their own homes to the value of £98 6s. 4d.

(ii) *Out-patients*.—26 adult patients have been recommended convalescence. Several have been to Bexhill or Walton-on-Thames owing to the kindness of subscribers who have generously given us their free Letters, some have obtained Letters for themselves and a few have made their own arrangements. No financial help has been given to these cases.

144 children have needed convalescence. Most of these have been referred to the Invalid Children's Aid Association, some of the parents have been able to pay the whole cost and they have gone direct and a few have preferred to make their own arrangements.

Grants have been made from the Samaritan Fund towards the expense to the value of £11 11s. 0d.

95 patients requiring sanatorium treatment have been dealt with by their various Insurance Committees or County Councils, 4 have gone to Benenden and 2 to Creton.

22 children have had sanatorium treatment arranged for them by the London or local County Councils.

Patients have been assisted with cab fares to Infirmaries or their homes to the extent of £7 8s. 11d.

Relief.

Grants have been given from the Dresden Assistance Fund to In-Patients after leaving the Hospital, amounting to £29 17s. 6d.

Small grants have been given to Out-Patients from the Samaritan Fund amounting to £2 8s. 6d. This has chiefly been given as a means of interim relief.

Maternity Department.

About 30 cases attended on the District have been assisted with Invalid Dinners for eight days. The cost of this has been £8 2s. 0d.

38 cases have been referred to the Diocesan Rescue Worker either when attending in the Out-Patient Department or from the Wards. Several from the Wards have been sent to Convalescent Homes.

We are indebted to the various branches of the Charity Organisation Society, Relief Committees and to the local Clergy for their continued help ; to the Queen Victoria and other Nursing Associations for their assistance in attending patients in their homes, to the London Insurance Committee and London County Council both of whom have given us early vacancies at sanatoria and to the Invalid Children's Aid Association for their very valuable help and co-operation especially in arranging convalescent treatment for the Out-Patient children.

H. M. PRICE,
Lady Almoner.

March 25th, 1919.

THE MEDICAL SCHOOL.

TWO Casualty Medical and Two Casualty Surgical Officers, Two Resident Officers to the Special Departments, Eight Resident House Surgeons, Six Resident House Physicians, and Two Resident Obstetric and Gynæcological House Surgeons, are appointed annually from among the qualified Students of the Hospital, besides a Medical Officer and Medical, Surgical and Obstetric Registrars, and a Registrar to the Cancer Wing.

Three Open Entrance Scholarships of the value of £100, £50 and £25, and a Scholarship of £50 open to Students of Universities who have completed their Anatomical and Physiological Studies, are awarded at the commencement of the Winter Session. An Entrance Scholarship is awarded annually to a Pupil of Epsom College who has passed the First examination for Medical Degrees of the University of London. A Scholarship of £50 is awarded to New Zealand Students who have passed their examinations in Anatomy and Physiology and who are proceeding to take a qualification in England. An Exhibition of £10 10s. is awarded at the end of the second Winter Session for proficiency in Anatomy and Physiology. The Hetley Prize of £25, the Leopold Hudson Prize of £11 11s., and the Lyell Medal and Scholarship, value £55 5s., are awarded annually. Two Broderip Scholarships, of the value of £60 and £40 respectively, are awarded to fifth year's Students for proficiency in Clinical knowledge. The Freeman Scholarship, of about £30, is awarded annually to Senior Students for proficiency in Obstetric Medicine. The Murray Medal and Scholarship of £25 is awarded every third year. Two Cancer Research Scholarships of the value of £100 each and one of £60 are awarded annually. Class Prizes are also awarded. Certain of these Scholarships have been modified during the period of the War.

The Tutors superintend and assist the Students in their studies without extra fee, and thus the necessity of obtaining private instruction away from the Medical School is obviated.

The General fee for the curriculum required by the Royal Colleges of Physicians and Surgeons and the Society of Apothecaries is 135 Guineas, if paid by instalments 145 Guineas; by London University 145 Guineas, or 155 Guineas by instalments. For Students who have passed the First examination for Medical Degrees 120 Guineas, or 130 Guineas by instalments. For Members of Universities recognised by the General Medical Council, and others who have completed their Anatomical and Physiological Studies, the fee for admission as General Students is 70 Guineas, or 75 Guineas by instalments. Fee for Dental Students 54 Guineas, if paid by instalments 60 Guineas.

Students who have registered, but who do not desire to take the whole Curriculum, may take out any courses of Lectures, Tutorial Classes, or Special Classes separately.

For the subjects for the Entrance Scholarships and any additional information apply to the Dean of the Medical School.
